

# PROTECT MARIN'S CREEKS:

## Workshop On Creek Restoration Techniques and More!

**SATURDAY, DECEMBER 5TH**  
**SPIRIT ROCK MEDITATION CENTER**  
**5000 SIR FRANCIS DRAKE BLVD. WOODACRE, CA**  
**11:45 AM - 3:30 PM**

Attend a **FREE** hands-on workshop led by creek restoration and design specialists; John Parodi with Point Blue Conservation Science, Dr. Ann Riley with the Regional Water Quality Control Board, Harold Appleton with Prunuske Chatham Inc., Marin County Stormwater Pollution Prevention Program (MCSTOPPP) and Marin Resource Conservation District (Marin RCD). Participants who pledge to share information on how to protect Marin's creeks will receive a goodie bag full of valuable resources.

Together We Will:

- ◆ Install several soil bioengineering techniques for creek bank stabilization
- ◆ Enhance shaded floodplain habitat with native vegetation
- ◆ Implement erosion control methods applicable to any landscape
- ◆ Identify and remove non-native invasive species
- ◆ Learn how rain can be caught and used as a resource — 'Slow it, Spread it, Sink it'

PLEASE Register Online at <http://marincreekworkshop.eventbrite.com>

Light refreshments will be provided.  
Please bring a refillable water bottle.

Requests for accommodations may be made by calling (415) 472-4381 (voice) or CRS 711 or by email at [disabilityaccess@marincounty.org](mailto:disabilityaccess@marincounty.org) at least **four work days prior to the event.**
