

NBWA Joint Technical Committee Meeting

September 14, 2017 – 10:30 am – Noon

Novato Sanitary District,
500 Davidson, Novato CA

The Marin RCD is re-certifying its Marin Permit Coordination Program, a streamlined CEQA environmental review process targeted to environmental projects of a certain size, location and type. This Special Meeting of the JTC will showcase Marin RCD's work on this successful program, cover new practices that might be added to the streamline efforts, how they might influence and participate in the MRCD Program and what other regional jurisdictions are doing in a similar effort.

I. Introductions

10:30 – 10:45 am

Judy Kelly, NBWA

Review agenda

Staff - MRCD

II Marin Permit Coordination Program (PCP)

10:45 -Noon

- **Overview of MRCD and its Permit Coordination Program [PCP]**
- **Usefulness of PCP**

How agencies might participate in the Program (e.g., during public comment period; develop a tiered document from the PCP CEQA document; file a Notice of Determination based on impact/mitigation analysis of PCP)

- **Case Study**
 - How are projects proposed, selected, vetted, and approved
 - BMPs; assessment of biological and/or cultural issues of concern
 - When/why is licensed engineering required; biological & cultural oversight
 - Monitoring and project closeout requirements
 - Comparison of PCP with standard process including costs
 - Example photos of other practices
 - Other Regional Examples of Programmatic CEQA Opportunities
 - Sonoma County Water Agency
 - Sonoma RCD LandSmart
 - Mendocino County RCD PCP
