

# AN EDUCATIONAL WORKDAY: WILLOW STAKING!

Learn hands-on how to cut, prepare and plant live willow stakes in order to **QUICKLY** achieve the following;

- ◇ Provide bank stabilization on eroding creek banks!
- ◇ Increase native vegetation!
- ◇ Improve riparian habitat!
- ◇ Enhance wildlife corridors!
- ◇ Reduce erosion!
- ◇ Increase canopy cover over the creek to reduce temperatures and elevate oxygen!
- ◇ Improve water quality through filtration!
- ◇ To learn more, visit <http://www.marinrcd.org/resources/>
